HeatMap Hackathon Team Evaluation Form

TEAM NAME / NUMBER: _____

PRIMARY USE CASE (check one):
☐ Referral Networks ☐ Telemedicine ☐ Equitable Access

JUDGE NAME: _____

Use Case Evaluation Guidance for Judges

- Teams are **not expected to address all three use cases**.
- Each team should identify **one primary use case** that their analysis focuses on.
- Scoring should be based on the team's **depth, rigor, and insight within their selected primary use case**.
- Insights that extend to additional use cases are **encouraged but not required** and should **not be expected**.

Scoring Scale (applies to all sections)

1 = Not Addressed
3 = Meets Expectations (complete, competent, appropriate)
5 = Excellent (exceptional clarity, rigor, and impact)

Total Possible Points: 45

I. Clinical / Business Use Case (15 Points Possible)

Purpose: Evaluates how well the team framed and addressed a real-world problem within their selected use case.

1. Primary Use Case Identification & Alignment (1–5)

- Clearly identifies one primary use case
- Aligns problem statement, data, and solution

Score (circle one): 1 2 3 4 5
Comments:

2. Use Case–Driven Insights (1–5)

- Analysis generates insights relevant to the selected use case
- Findings are supported by evidence
- Actionability is demonstrated

Score (circle one): 1 2 3 4 5
Comments:

3. Patient, Provider, or System Impact (1–5)

- Demonstrates relevance to real-world stakeholders
- Impact may be clinical, operational, or systemic

Score (circle one): 1 2 3 4 5
Comments:

Subtotal – Clinical / Business Use Case: _____ / 15

II. Analytic / Methodologic Quality (15 Points Possible)

Purpose: Evaluates technical rigor, appropriateness, and creativity of the approach.

4. Methodological Soundness (1–5)

- Methods are appropriate, correct, and well explained
- Assumptions are reasonable and justified

Score (circle one): 1 2 3 4 5
Comments:

5. Innovation & Creativity (1–5)

- Applies novel approaches or creative problem-solving
- Goes beyond a purely standard or expected analysis

Score (circle one): 1 2 3 4 5
Comments:

6. Data Integration & Insight Generation (1–5)

- Effectively uses available data
- Integrates context to generate defensible insights tied to the use case

Score (circle one): 1 2 3 4 5
Comments:

Subtotal – Analytic / Methodologic Quality: _____ / 15

III. Presentation & Communication (15 Points Possible)

Purpose: Evaluates how effectively the team communicates their work.

7. Clarity & Storytelling (1–5)

- Clear narrative from problem → analysis → solution
- Logical and easy to follow

Score (circle one): 1 2 3 4 5
Comments:

8. Visual & Verbal Quality (1–5)

- Slides and visuals are clear and professional
- Verbal explanation is understandable and engaging
- Competition rules and required components were followed

Score (circle one): 1 2 3 4 5
Comments:

9. Actionability, Feasibility & Impact (1–5)

- Clear, realistic next steps
- Feasible implementation considerations
- Potential for real-world impact

Score (circle one): 1 2 3 4 5
Comments:

Subtotal – Presentation & Communication: _____ / 15

TOTAL SCORE
